**THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION.**

***REVIEW IT CAREFULLY.***

WHO WILL FOLLOW THIS NOTICE.

This notice describes our hospital's practices and that of:

1. Any health care professional authorized to enter information into your hospital chart.
2. All departments and units of the hospital.
3. Any member of a volunteer group we allow to help you while you are in the hospital.
4. All employees, staff and other hospital workforce.

OUR PLEDGE REGARDING MEDICAL INFORMATION:

We understand that medical information about you and your health is personal. We are committed to protecting medical information about you. We create a record of the care and services you receive at Columbus Regional Hospital. We need this record to provide you with quality care and to comply with certain legal requirements. This notice applies to all of the records of your care generated by the hospital, whether made by hospital personnel or your personal doctor. Your personal doctor may have different policies or notices regarding the doctor's use and disclosure of your medical information created in the doctor's office or clinic.

This notice will tell you about the ways in which we may use and disclose medical information about you. We also describe your rights and certain obligations we have regarding the use and disclosure of medical information.

We are required by law to:

- make sure that medical information that identifies you is kept private;
- give you this notice of our legal duties and privacy practices with respect to medical information about you; and
- follow the terms of the notice that is currently in effect.

## HOW WE MAY USE AND DISCLOSE MEDICAL INFORMATION ABOUT YOU.

The following categories describe different ways that we may use and disclose medical information. For each category of uses or disclosures we will explain what we mean and try to give some examples. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of the categories.

- ☞ **For Treatment.** We may use medical information about you to provide you with medical treatment or services. We may disclose medical information about you to doctors, nurses, technicians, medical students, or other hospital personnel who are involved in taking care of you at the hospital. For example, a doctor treating you for a broken leg may need to know if you have diabetes because diabetes may slow the healing process. In addition, the doctor may need to tell the dietitian if you have diabetes so that we can arrange for appropriate meals. Different departments of the hospital also may share medical information about you in order to coordinate the different things you need, such as prescriptions, lab work and x-rays. We also may disclose medical information about you to people outside the hospital who may be involved in your medical care after you leave the hospital, such as family members, clergy or others we use to provide services that are part of your care.
- ☞ **For Payment.** We may use and disclose medical information about you so that the treatment and services you receive at the hospital may be billed to and payment may be collected from you, an insurance company or a third party. For example, we may need to give your health plan or insurance company information about surgery you received at the hospital so your health plan or insurance company will pay us or reimburse you for the surgery. We may also tell your health plan about a treatment you are going to receive to obtain prior approval or to determine whether your plan will cover the treatment.
- ☞ **For Health Care Operations.** We may use and disclose medical information about you for hospital operations. These uses and disclosures are necessary to run the hospital and make sure that all of our patients receive quality care. For example, we may use medical information to review our treatment and services and to evaluate the performance of our staff in caring for you. We may also combine medical information about many hospital patients to decide what additional services the hospital should offer, what services are not needed, and whether certain new treatments are effective. We may also disclose information to doctors, nurses, technicians, medical students, and other hospital personnel for review and learning purposes. We may also combine the medical information we have with medical information from other hospitals to compare how we are doing and see where we can make improvements in the care and services we offer. We may disclose this information by mail, fax, e-mail, or other appropriate

medical information communication methods. We may remove information that identifies you from this set of medical information so others may use it to study health care and health care delivery without learning who the specific patients are.

- ☛ **Organized Health Care Arrangement (OHCA)**. Members of the Columbus Regional Hospital Medical Staff will participate in the Columbus Regional Hospital Organized Healthcare Arrangement (OCHA). An Organized Healthcare Arrangement (OHCA) is an arrangement that involves clinical or operational integration among legally separate covered entities in which it is often necessary to share Protected Health Information for the joint management and operations of the arrangement. By participating in the OHCA the Medical Staff will use the Notice of Privacy Practices (NPP) created by Columbus Regional Hospital. The Medical Staff will also be able to share information between providers for the purposes of Treatment, Payment, and Operations without authorization from the patient with the expectation of the Medical Staff will use appropriate safeguards when discussing protected health information with other providers.
- ☛ **Appointment Reminders**. We may use and disclose medical information to contact you as a reminder that you have an appointment for treatment or medical care at the hospital.
- ☛ **Treatment Alternatives**. We may use and disclose medical information to tell you about or recommend possible treatment options or alternatives that may be of interest to you.
- ☛ **Health-Related Benefits and Services**. We may use and disclose medical information to tell you about health-related benefits or services that may be of interest to you.
- ☛ **Fund-raising Activities**. We may use medical information about you to contact you in an effort to raise money for the hospital and its operations through Columbus Regional Hospital Foundation, Inc.. We only would release contact information, such as your name, address and phone number and the dates you received treatment or services at the hospital. If you do not want the hospital to contact you for fund-raising efforts, you must notify the Columbus Regional Hospital Foundation at 2400 E. 17<sup>th</sup> Street, Columbus, IN 47201 in writing.
- ☛ **Hospital Directory**. We may include certain limited information about you in the hospital directory while you are a patient at the hospital. This information may include your name, location in the hospital, your general condition (e.g., fair, stable, etc.) and your religious affiliation. The directory information, except for your religious affiliation, may also be released to people who ask for you by name. Your religious affiliation may be given to a member of the clergy, such as a priest, minister, or rabbi, even if they don't ask for you by name. This is so your family, friends and clergy can visit you in the hospital and generally know how you are doing.

- ☞ **Individuals Involved in Your Care or Payment for Your Care.** We may release medical information about you to a person who has been determined to be actively involved in your medical care. We may also give information to someone who helps pay for your care. We may also tell your family or friends your condition and that you are in the hospital. In addition, we may disclose medical information about you to an agency assisting in a disaster relief effort so that your family can be notified about your condition, status and location.
- ☞ **Research.** Under certain circumstances, we may use and disclose medical information about you for research purposes. For example, a research project may involve comparing the health and recovery of all patients who received one medication to those who received another, for the same condition. All research projects, however, are subject to a special approval process. This process evaluates a proposed research project and its use of trying to balance the research needs with patients' need for privacy of their medical information. Before we use or disclose medical information for research, the project will have been approved through this research approval process. We may, however, disclose medical information about you to people preparing to conduct a research project, for example, to help them look for patients with specific medical needs, so long as the medical information they review does not leave the hospital. We will almost always ask for your specific permission if the researcher will have access to your name, address or other information that reveals who you are, or will be involved in your care at the hospital.
- ☞ **As Required By Law.** We will disclose medical information about you when required to do so by federal, state or local law.
- ☞ **To Avert a Serious Threat to Health or Safety.** We may use and disclose medical information about you when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person. Any disclosure, however, would only be to someone able to help prevent the threat.
